# Insect Communication Song

Insects talking, insects squawking day and night  
Day and night,

**Crickets rub their wings, ehhehehehh**

(Children rub their arms together like a cricket while making the ehheh sound)

**Fireflies blink their lights, blink blink blink blink blink**

(Children open and close their hands like a firefly blinking its light while singing blink, blink, blink)

**And honey bees do the dance and honey bees do the dance**

(Children show off their best dance moves as they sing "honey bees do the dance")
